Scheme Meetings

Restructure Proposal

- ▶ **The AusNet Services Directors believe that the complexity of the current corporate structure is no longer appropriate and that the Proposal achieves a number of key benefits:**
 - Simplification and potential broader investor appeal
 - Reduced administration
 - Greater certainty of tax position in relation to capital structure
 - Facilitates the efficient repayment of AusNet Services Trust Loans
 - Improved ability to distribute available franking credits
- › also has a number of **disadvantages and risks** including:
 - Profile of future distributions may not suit all investors and no ability to make tax deferred distributions
 - Transaction costs
 - Potential stamp duty liability triggered by any further restructure of AusNet Services subsequent to this Proposal (no such restructure is currently expected)
 - Cancellation of AusNet Services' pre-2005 tax losses but this is expected to be offset by an increase in the tax base of certain assets as a consequence of tax consolidation

Because the benefits outweigh disadvantages and risks, the AusNet Services Directors believe that the Proposal is in the best interests of Securityholders. Therefore the Directors unanimously recommend that Securityholders vote in favour of the Resolutions.

Current ownership structure

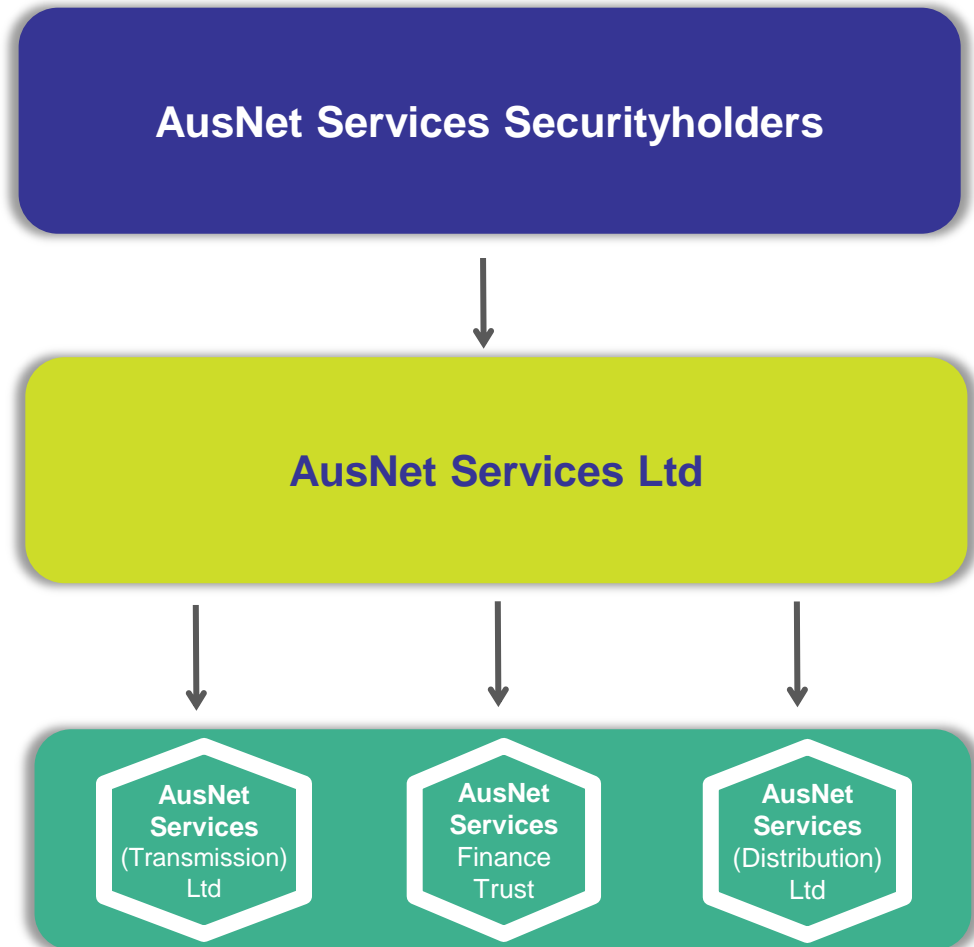

Proposed ownership structure

If the Proposal is implemented:

- ▶ New listed entity (AusNet Services Ltd) will become the new single head entity of the AusNet Services group
- ▶ **All Eligible Securityholders will receive one share in AusNet Services Ltd for each stapled security held on the Record Date, 11 June 2015**
- ▶ No cash payment from Securityholders or capital return to Securityholders, as part of the Proposal
- ▶ No change to the composition of the Board (as a consequence of the Proposal) or to the underlying business and assets
- ▶ **Any future periodic distributions expected to be paid entirely as dividends**
- ▶ The distribution reinvestment plan will apply to the next distribution in the usual way (except that, if the Proposal is implemented, the securityholders will receive AusNet Services Ltd shares instead of AusNet Services stapled securities)
