## AusNet Services presents \$7,000 cheque to Kings Park Community Centre

AusNet Services presented a \$7,000 cheque to the Seymour Football Netball Club to assist with a safety improvement project at the Kings Park Community Centre, Seymour.

The cheque, presented to the President of SFNC, Gerard O'Sullivan, will be used for the replacement of a retaining wall, health compliance work to the kitchen and re-wiring of electrical circuits in the building to improve safety.

AusNet Services' Regional Customer and Community Manager, Craig Velt, said that the company is committed to partnering with local community groups to help deliver projects that have broad community benefits.

"As safety is our number one value, AusNet Services is proud to be involved with a community-led project to improve the safety of facilities utilised by many community-minded groups in the local area," Craig said.

"We understand the complexities of securing resources for projects such as this, so we are pleased to be able to provide funding support.

"We look forward to seeing the finished product that will deliver benefits to the broader Seymour community," he said.

Each year, AusNet Services commits \$150,000 in sponsorships and donations across northern and eastern Victoria.
